

NIRXBLOCK

LIGHTPAPER

bringing fiat to the blockchain

INTRODUCING NIRXBLOCK

NIRXBlock Payment Systems Nigeria Limited Otherwise known as “NairaX” : is a Nigerian company formally incorporated under RC-2903759 as a blockchain based fintech entity.

OUR EVOLUTION

Since 2017, our team continuously worked towards the development of the most stable Crypto-Commerce platform in Africa & the entire globe. NairaX aims to join a list of secure payment system providers globally used to securely complete payments for millions of business transactions.

NAIRAX

NairaX developed “NIRX” : a digital ERC20-based coin legally backed by fiat currency, precisely the “Naira”. The Nigerian Naira is the currency of Nigeria with currency code represented as “NGN”. NairaX is backed with the NGN on a 1:1 ratio in the equivalent amount of its corresponding FIAT value; at any given time, NIRX will either remain equal in this ratio or surpass the FIAT equivalent in real time value.

NAIRAX CRYPTO-COMMERCE PLATFORM

NairaX will launch a cryptocurrency-powered ecommerce platform initially designed for buyers and sellers locally, then subsequently implemented all over the world.

The essence?

By harnessing all the necessary eCommerce tools in promoting businesses using NIRX (and other cryptocurrencies) for exchange of goods and services, we are creating an eternal utility for NIRX in our own marketplace. This is why NairaX has been sponsored by financial bodies to push for a stable decentralized asset which can be used as a form of exchange with NO risk of inflation.

In Nigeria, eCommerce services are still being offered by a limited number of companies who seem incapable of handling various customer interests/complaints. At NairaX we want to provide sound service to our clientele. Also, through our currently developing ecommerce platform, we could additionally generate a positive reverberating effect on the FIAT Naira at international markets environments.

CURRENT eCOMMERCE STATUS and OUR SOLUTION

	Current Status	Our Solution
<p>SMEs, Start-ups & Small- business- Projects</p>  <p>Investors</p>	<ul style="list-style-type: none"> • High foreign exchange fees required for international payments. • Sellers typically required to pay high commission fees to trade on conventional eCommerce platforms. • Mono-Currency gateway. 	<ul style="list-style-type: none"> • Minimal transaction fees lesser than a dollar. • Sellers required to pay lesser maintenance fees to showcase goods and services Insufficient • Payment in NIRX, BTC, ETH and LTC.

TOKEN DISTRIBUTION

NairaX total supply sums up-to **10,000,000,000** NIRX Tokens.

Up-to **3,500,000,000** NIRX Tokens will be sold during the ICO and IEO.

1,500,000,000 NIRX has been apportioned for our Presale ICO.

2,000,000,000 NIRX has been apportioned for our IEO Crowdsale.

In total, **35%** of the total supply will be distributed during the ICO (which includes both tokens sold and bonus tokens distributed). After the crowd sale, unsold tokens will be burned.

Soft Cap: 10,000,000 USD

Hard Cap: 15,000,000 USD

Coin Distribution Chart
